Product Description	This cradle mount with acrylic adhesive is fast and easy to apply to any flat surface and is ideal for routing wires in industrial applications where rework and adjustments are common. Mount features a 0.43" cradle opening for cable retention, providing temporary cable management for simple adjustments and cable additions, or final cable attachment. Cradle also protects against abrasion and cable damage. To permanently mount the bundle, the EZ Feed cable tie slot eliminates common obstructions for faster completion. During rework, the CutZone prevents wire damage when cutting off cable ties.
